AWI Quality Certification Corporation Names New QCP Program Director and Inspections Manager

Wayne Hintz promoted to QCP Program Director; Ashley Goodin promoted to Inspections Manager

Potomac Falls, Va. (August 30, 2011) – Former Inspections Manager Wayne Hintz has been promoted to QCP Program Director, a new position that will focus specifically on the daily management of the AWI Quality Certification Program (QCP).

Hintz is a veteran of the woodwork industry with more than 25 years of experience. He joined the QCP as a Q-representative in July of 2005, and took on the role of Inspections Manager in September of 2009. In his new position as QCP Program Director, Hintz will oversee all aspects of the QCP, including accreditation of woodworking firms, certification of QCP projects and the management and training of all Q-representatives.

In addition, Ashley Goodin has been promoted to Inspections Manager. Goodin is also a former Q-representative. Most recently, he served as QCC Compliance Auditor, working alongside Hintz to review inspection reports and answer technical questions. In his new role as Inspections Manager, Goodin will be responsible for the entire project inspection process, including the review and approval of inspection reports submitted by Q-representatives.

“Due to recent efforts to expand the product offerings of the Quality Certification Corporation (QCC), there arose a need for someone to oversee our core product, the QCP,” said AWI QCC Executive Vice President Craig Elias. “Wayne is the perfect choice because of his vast knowledge of the industry, the QCP and the AWI Standards,” Elias said. “I look forward to working with both Wayne and Ashley in their new roles,” Elias added.

Both promotions are effective September 1, 2011.

About the QCP

Established in 1995, the QCP verifies compliance with industry standards and the project specifications, giving design professionals an increased level of quality assurance in custom interior architectural woodwork. The AWI Quality Certification Corporation, an independent 501-c-6 corporation, administers the QCP.
